

ORGANISER GUIDE

Cost effective, all inclusive mini portrait sessions for yards & groups.

Considerations -

These sessions are highly discounted so require a minimum of five subjects. In summer the max per day is twelve, dropping to eight max in winter when the dark nights roll in! As organiser you'll be tasked to gather numbers, take payments & book the date. You'll be my one point of contact, work out who goes when & ideally kidnap the odd helper to keep the day running smoothly!

What's Included -

£65 is per single subject (one horse or dog)
Maximum 20mins camera time per subject
Selection gallery of ten images per subject
Standard black background edit per subject
One classic medium (12 x 16") print per subject
Corresponding social media digital per subject
Thirty miles travel - additional miles @ 0.45pm
Final delivery to one address, ie you or the venue

How it works -

Owners pay you & you pay me at point of booking
Gallery login details are sent to you (usually within 72hrs)
Owners select ONE image per included print per subject
Organisers send ONE list of any additional prints / products
Edited files are uploaded for owners to check before production
Social media digitals are available to download for a further 14 days
Additional prints & products are available ot order from £35 -

Multiples -

Multiple owners are welcome to share the frame with the paid subject at no additional fee. An owner can also opt to have several subjects photographed (or composited together) but £65 'per head' still applies. It multiplies the time on the day & the time required to edit each subject for print.

Notes -

Bespoke backgrounds & edits are available at addtional cost
In the event of proven loss, I refund fees with due compassion
No additional subjects or cash payments are accepted on the day
Portraits are head / neck only - no full body or ridden shots included
Please read the Terms, Conditions & Copyright information on this website

Organisers recieve £55 print credit by way of thanks for being fabulous!
